

# Fly with Bimec

high performance slitter rewinders

Bimec S.r.l have specialised in the **design and construction of slitter rewinders** for over 39 years. Suitable for plastic films, paper and laminates the Bimec range leads the way with functional, innovative design and mature engineering.

**Years of experience and a wide range of versatile options allow us to customise standard models to suit most requirements.** Our commitment to service guarantees rapid technical assistance if required.

Our well-engineered slitters are manufactured in Italy to the highest standards and are recognised internationally for their quality, high output, durability and innovation. Bimec slitters are distributed and supported through a worldwide sales network.

experienced engineering, innovative design.

Experienced engineering, innovative design.

Εμπειρία στην κατασκευή, καινοτομία στην τεχνολογία.
